## Response to Amendment

This action is responsive to Applicant's response filed on June 13, 2003 (paper #4). The Information Disclosure Statement (IDS) received on December 20, 1999 is acknowledged.

## Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-22 and 29-34 are rejected under 35 U.S.C. 102(b) as being anticipated by <u>Vora</u> et al. (U.S. Patent No. 5,623,652).

Regarding claims 1, 7-11, 17, 19, 20 and 29-32, <u>Vora</u> discloses an apparatus for associating information with an object in a file (fig. 2, block 201), the apparatus comprising a scheduler (fig. 7B, items 727 and 729) including a component for associating a search key (fig. 7B, keys 726 and 733 with 735) with the object in the file, wherein said scheduler is operable to schedule a search for said information using said search key for automatic execution (fig. 7B, key 726 with 735) by a search interface operable to initiate scheduled searches (fig. 2, block 209).

Regarding claims 2-4 and 12-14, <u>Vora</u> discloses tagging and labeling objects (fig. 6, box 615 and col. 15, lines 20-27).

Art Unit: 2171

Regarding claims 5, 6, 15, 16, 21 and 33, <u>Vora</u> discloses scheduling comprises storing (fig. 1, items 11 and 39) a search key in association with a time of execution at which said search is to be executed (fig. 7B, items 726, 733, 727, 729 and 735) and identifying said object (fig. 4A).

Regarding claims 18, 22 and 34, <u>Vora</u> discloses the search comprising a search engine (fig. 2, box 207).

## Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 23-28 and 35-40 are rejected under 35 U.S.C. 103(a) as being unpatentable over Vora et al. (U.S. Patent No. 5,623,652) in view of Barnett et al. (U.S. Patent No. 6,369,840).

Regarding claims 23 and 35 <u>Vora</u> discloses all of the claimed subject matter as discussed above with respect to claims 20 and 32, including an internet server and a gateway (fig. 1, blocks 63 and 61, <u>Vora</u>), but does not expressly teach a search associated with a universal resource locator (URL). However, <u>Stark</u> discloses a mapping structure of a collection of computer resources (title and fig. 4, <u>Stark</u>) where an URL is associated with a search object (fig. 5, items 120, 122, 124 and 126, <u>Vora</u>). Hence, it would have been obvious to a person of ordinary skill in

Art Unit: 2171

the art at the time the invention was made to have combined <u>Vora</u> in view of <u>Stark</u> because <u>Vora</u> uses an internet server which could be implemented in view of Stark to associate a URL with an object. One of ordinary skill in the art would have been motivated to map URL with objects to link the desired reference of a search.

Regarding claims 24, 28, 36 and 40, <u>Vora/Stark</u> disclose running scripts to populate fields of a search engine (fig. 6A, items 202-214, <u>Stark</u>).

Regarding claims 25-27 and 37-39, <u>Vora/Stark</u> disclose URL and hyperlinks (fig. 5, items 142, 144, 150, *152*, *154* and 156, <u>Stark</u>).

### Response to Arguments

Applicant's arguments filed on June 13, 2003 have been fully considered but they are not persuasive. The arguments and responses are listed below.

Applicant argues on page 2 of the 7/13/2003 response that Vora et al fails to disclose "associating a search key with the object in said file", as recited in claim 1 and all the independent claims.

In response to Applicant's argument, Examiner disagrees. Figure 3A, Vora further discloses and illustrates step 201 of figure 2 previously cited by the Examiner wherein associating (searching) a search key (index) with the object (search request 1) in said file (data

Art Unit: 2171

searched) is performed (fig. 3A, item 315). Note, search request 1 (object) is defined in step 311 and based on this object the index is searched.

With respect to all the pending claims 1-40, Examiner respectfully traverses Applicant's assertion based on the discussion cited above, as such, Examiner maintains the same rejections.

#### Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marc R Filipczyk whose telephone number is 703-305-7156. The examiner can normally be reached on Mon-Fri, 8am-4:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Safet Metjahic can be reached on 703-308-1436. The fax phone numbers for the
